

Discover Your Potential

Amgen Scholars

An Undergraduate Summer Research Programme in Science and Biotechnology

Host Universities in Europe:

Karolinska Institutet
Sweden

Ludwig-Maximilians-Universität München
Germany

University of Cambridge
United Kingdom

The Amgen Scholars Europe Programme provides selected undergraduate students with the opportunity to engage in a hands-on research experience at some of Europe's leading educational institutions. Currently, three universities in Europe host the summer research programme. The Amgen Foundation has committed \$34 million over eight years to this global initiative to make this opportunity possible to more than 2,400 students.

Inspiring the Scientists of Tomorrow

As Amgen Scholars, students will have the opportunity to:

- Take part in important university research projects, gain hands-on lab experience, and contribute to the advancement of science;
- Interact with and receive guidance from faculty mentors, including some of Europe's top academic scientists; and
- Attend scientific seminars, workshops, and other networking events.

The Amgen Scholars European Symposium

A signature component of the summer programme is a symposium where students hear firsthand from leading scientists working in industry and academia. The European symposium is held in England and provides students with a valuable opportunity to network with other Amgen Scholars from across Europe.

www.amgenscholars.eu

Financial support is a critical component of the Amgen Scholars Programme. Please note that details vary by host university. See each university's summer research programme website for more information.

Amgen Scholars Europe Programme applicants must be:

- Undergraduate students enrolled in colleges or universities in Europe*; and
- Undergraduate students who have not completed their bachelor's or first degree (or its equivalent) prior to participating in the Programme.

Europe Programme applicants must also have:

- A strong record of academic performance; and
- An interest in pursuing a Ph.D.

Each European host university has its own application process, but the application deadline for all of the universities is in early February.

For more information, please contact the Amgen Scholars European Coordinating Centre by calling +44 (0)1223 747459 or by e-mailing asp-enquiries@biomed.cam.ac.uk.

* Eligible students must attend colleges or universities in countries that are participating in the Bologna Process. For a full list of eligible countries, please see the Amgen Scholars Programme website at www.amgenscholars.eu.

Amgen Scholars is an international programme funded by the Amgen Foundation with direction and technical assistance provided in the United States by the Massachusetts Institute of Technology and in Europe by the University of Cambridge. The Amgen Foundation seeks to advance science education; improve patient access to quality care; and strengthen the communities where Amgen staff members live and work. Since 1991, the Foundation has made more than \$140 million in grants to nonprofit organisations across the United States, Puerto Rico, and Europe that impact society in inspiring and innovative ways. It has also supported disaster relief efforts both domestically and internationally. To learn more about the Amgen Foundation, visit the Corporate Giving section of www.amgen.com.
